Description of mark	This design represents an original sterling-silver engagement and wedding ring featuring a sculptural leaf-inspired band. The ring band has flowing contours with botanical detailing integrated along both sides of the shank. Each leaf form is raised and shaped to follow the natural curve of the band, creating a gentle organic texture while maintaining smooth edges for comfort. The centre stone is mounted in a fixed setting positioned above the band to enhance light reflection and elevate the visual profile. The leaves on the band taper gradually toward the underside, creating a refined blend of nature-inspired aesthetics and contemporary jewellery design. The inner band	

	surface is curved for cofortable long- term waer.
