FOUNDATION CERTIFICATE IN INTERNATIONAL INSOLVENCY LAW 2022/23

Building on the success of the Foundation Certificate course in 2019 (109 candidates), 2020 (122 candidates) and 2021 (128 candidates), INSOL International is delighted to announce that enrolments for the fourth intake of candidates on the course will open on **1 May 2022**.

The course for 2022/23 contains a total of 41 modules, 36 of which are elective modules covering 35 jurisdictions and a general module on ethics and professional practice. While it is emphasised that the Foundation Certificate is an entry-level course aimed at persons with less than five years' experience, applicants with more than five years' experience are welcome to enrol on the course, provided they meet all the entry criteria.

The Foundation Certificate is a postgraduate certificate programme aimed at inexperienced or new entrants to the insolvency profession and is presented entirely online. With firms and individuals becoming increasingly aware of the importance of preparing for the future, the Foundation Certificate provides a sound theoretical and practical basis in the basic principles of international insolvency law.

Enrolments for the 2022/23 course open on **1 May 2022** and close on **26 August 2022**. The course formally commences on **1 September 2022**.

For more information please consult the Course Brochure or contact David Burdette at David.Burdette@insol.org or atfoundationcertificate@insol.org.
